Smart Tips for Planning Your Budget Safari

01

Travel in Groups

Share safari vehicle costs and accommodation expenses. Groups of 4-6 people can save up to 40% per person compared to individual bookings.

03

Choose Core Zones

Focus on main park zones rather than buffer areas for better wildlife sightings. Core zones offer higher animal density despite slightly higher fees.

02

Book Early & Off-Season

Reserve your spot 2-3 months ahead for better rates. Visit during shoulder seasons (April-May, September-October) for significant savings.

04

Skip Luxury Add-ons

Avoid expensive spa treatments and premium dining. Focus budget on more safari drives and quality photography guidance instead.
